

Optimise digital identity and access. Cut Costs with Imprivata

“We are now requesting that all NHS providers reduce their corporate cost growth by 50% during Quarter 3 2025/26. These savings should be reinvested locally to enhance frontline services.”

[Sir James Mackey, Chief Executive, NHS England](#)

The challenge faced

With NHS Trusts required to reduce corporate cost growth by 50%, IT operations and security are under pressure to deliver immediate and sustainable efficiencies.

Achieving these goals isn't about compromise. It's about streamlining digital access, reducing risk, and enabling frontline staff to focus on care, not admin.

This is where **Imprivata**, in partnership with Trustmarque, delivers proven, secure, and clinician-friendly digital identity solutions tailored for NHS environments.

Trustmarque, a trusted IT partner to over 60% of NHS organisations across the UK, delivers Digital Identity Optimisation powered by Imprivata's leading access management and authentication technologies.

Together, we help Trusts secure sensitive data, accelerate workflows, and meet regulatory requirements, while reducing operational costs and IT burden.

NHS Smart Spend Initiative

Trustmarque is a UK-based, proven and trusted IT partner to the NHS, supporting over 60% of healthcare organisations across all four UK nations.

As one of the top seven IT suppliers to the NHS, we've launched our Smart Spend Initiative to help the NHS release rapid savings, increase capacity to care, enabling Trusts to transform at speed.

Solution: Digital Identity Optimisation for the NHS

Imprivata delivers a unified platform that streamlines secure access to clinical systems, reducing complexity and improving user experience across the NHS. By automating identity management and authentication workflows, Trusts can enhance security, cut operational costs, and give clinicians more time to focus on patient care.

Identity and Access Management

Centralise and automate user access. Reduce overhead, mitigate risk, and enhance user experience.

Authentication and MFA

Support for smartcards, biometrics, and proximity badges helps Trusts meet NHS security standards without sacrificing speed.

Clinical Efficiency

From virtual wards to remote consultations, Imprivata ensures secure, fast access across locations and devices.

Outcomes you can expect

NHS Trusts can achieve faster, more secure access to critical systems, reducing login times and improving clinical efficiency. At the same time, automation and identity governance help lower IT support costs, strengthen compliance, and enhance overall operational resilience.

Clinical Workflow Acceleration

Fast, secure access to systems at the point of care.

Enhanced Security and Compliance

Ensure only the right people access the right data at the right time.

Operational Cost Reduction

Fewer password-related service desk calls, reduced credential sprawl, and lower support costs.

Long-Term Digital Transformation

Platform integration with NHS EPRs, VDI, and SSO environments, futureproofing your digital infrastructure.

Partnering with Trustmarque and Imprivata empowers NHS Trusts to achieve meaningful digital transformation without compromising security or care quality. Let's simplify access, strengthen protection, and reinvest time and savings back into frontline services.

**Reinvest in care,
not complexity.**
